

Jasmine Pankratz

Industrial Engineer | Data Scientist

Dallas, TX | 817-564-1275 | jasmine.pankratz@gmail.com | linkedin.com/in/jasmine-pankratz

Industrial Engineer specialized in data science with a strong foundation in statistical modeling, data visualization, and process improvement and 10+ years of experience in operations, retail, and customer service. Proven ability to translate complex data into clear communications and manage multiple projects under deadline. Eager to apply my skills to help a data-driven organization turn complex data into actionable insights that support smarter decisions.

CORE SKILLS

- Python, SQL, R, VBA
- AI Tooling
- Professional Communication
- Advanced Excel
- Machine Learning
- Analytical/Problem-Solving
- Data Mining & Visualization
- Attention to Detail
- Cross-Functional Collaboration

KEY ACHIEVEMENTS

- Drove 200% (2022) and 188% (2023) year-over-year enrollment growth through data-informed outreach, earning Team of the Year (2022)
- Built a machine learning classification model to predict flight arrival delays, engineering features from historical data, earning selection to present at UTA Innovation Day 2025
- Designed VBA automation tools that streamlined production-control reporting workflows, reducing manual data-entry errors and processing time (2025)
- Modeled a multi-stage production facility using discrete-event simulation to evaluate a multimillion-dollar capital investment, identifying the labor resource as the primary bottleneck (2026)

PROFESSIONAL EXPERIENCE

Handshake

Dallas, TX

AI Trainer

Jul 2026 – Present

- Improve AI model accuracy across audio, visual, and text tasks through structured evaluation and feedback.
- Review and assess AI performance through A/B testing to inform model improvements.

Goodwill North Central Texas

Fort Worth, TX

Digital Skills Specialist

May 2022 – Aug 2023

- Analyzed community demand data to identify expansion opportunities, scaling a digital-literacy program into 29 new sites within 6 months.
- Tracked, analyzed, and reported enrollment performance metrics using data visualization; communicated findings to leadership to drive strategic decisions.
- Earned Team of the Year (2022) for driving 200% (2022) and 188% (2023) enrollment growth through data-informed outreach and process improvements.

University of Texas at Arlington

Arlington, TX

Program Coordinator I | College of Engineering

Oct 2017 – Jun 2020

- Managed registration data, records, and reporting systems for engineering camps and outreach programs across multiple initiatives.
- Created event surveys, collected and analyzed feedback data, and generated reports to inform program improvements and stakeholder communications.

- Maintained accurate documentation and process standards while overseeing operations and coordinating with cross-functional teams

Neiman Marcus

Dallas, TX

Product Specialist

Mar 2015 – Sept 2016

- Spearheaded the launch of SK-II Skincare at Neiman Marcus, establishing a new cosmetic line.
- Drove sales performance through strategic planning and execution of business initiatives.
- Cultivated strong client relationships and delivered exceptional customer service.
- Coordinated events and managed brand presentations to enhance customer engagement.

Napoleon Perdis Cosmetics

Dallas, TX

Account Coordinator

Apr 2012 – Feb 2015

- Managed retailer accounts and tracked performance metrics; generated reports on brand visibility and customer engagement to inform account strategy and territory decisions.
- Designed training programs with built-in performance measurement; analyzed and reported improvements to drive retailer success and sales growth.

EDUCATION

University of Texas at Arlington

Expected Dec 2026

Bachelor of Science in Industrial Engineering | Major GPA: 3.51

Relevant coursework: Data Mining & Analytics, Engineering Decision Making with Data (Python), Engineering Probability & Statistics, Operations Research

University of Texas at Arlington

2013

Bachelor of Arts in French, Minor Mathematics

CERTIFICATIONS

- IISE Six Sigma Green Belt (2025)
- IISE Lean Green Belt (2025)
- DataCamp Python Data Fundamentals (2025)
